EXPENSES & FUNDING OF LITIGATION: MULTI-PARTY ACTIONS
PAPER

The paper sets out high level objectives of a proposed multi-party action procedure. As the paper anticipates, further consultation will be necessary in relation to the statutory instruments and rules of court which will add the detail to the broad outline proposed. The Faculty is in agreement with the broad objectives outlined in this paper and has no comment to make on these objectives. The Faculty is keen to be involved in the consultation process on the detailed rules and looks forward to contributing to their development.
